ABOUT THE COURSE

This online course provided essential skills in Figma. Topics covered included - working with personas and briefs, low-fidelity wireframes, working with color and type styles, creating and managing component libraries, creating variable components, high-fidelity prototyping, desktop and responsive breakpoints, pen tool and icons, working with images, auto-layout, sharing for testing and feedback, UI and Figma best practices, collaborating and developer hand-off. These skills have been demonstrated through completed course projects and knowledge quiz questions.
