Class project 01 - Create your own brief

- Visit: www.randomprojectgenerator.com
- Click the **UI/UX** button.
- Enter your name & location and hit the 'generate my project' button.
- Save your brief onto your computer/phone. We'll reference this later.

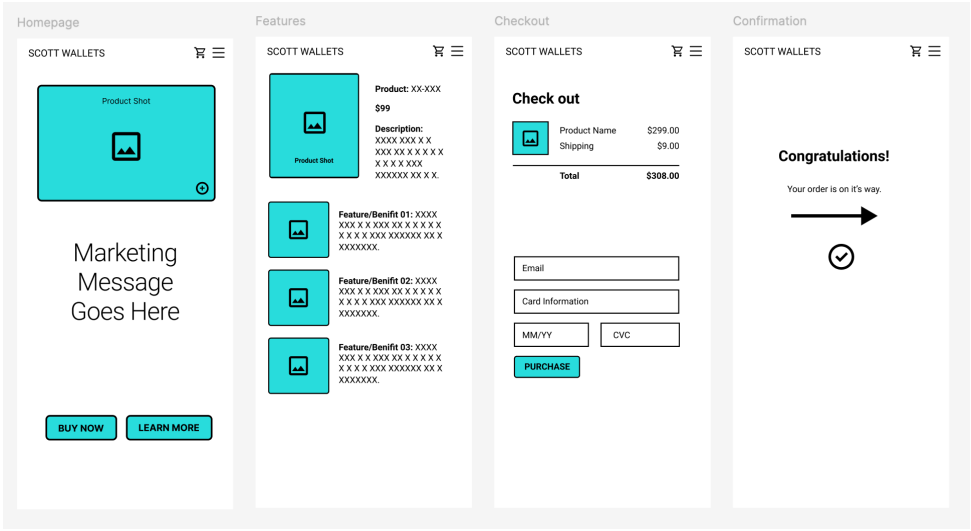

Class project 02 - Wireframe

- Using the skills we've learnt so far, create your own wireframe.
- Your wireframe should be the same as or close to this:
  - 

  - *Larger image available in the exercise files: Wireframe Example.png.*
- Requirements:
  - 4 pages as per the task flow:
    - Homepage/Marketing Page
    - Product Details
    - Checkout
    - Confirmation
  - Choose your own color & font.
- Deliverables:
  - Take a screenshot of your mobile & desktop frames. Upload it to the Projects/Assignments section of this website.

Class project 03 - Icons

- Find 3+ icons for your mobile site.
    - Cart, Image & Success
- Deliverables:
    - Take a screenshot of your 4 pages & upload it to the Projects/Assignments section of this website.
    - Example only:

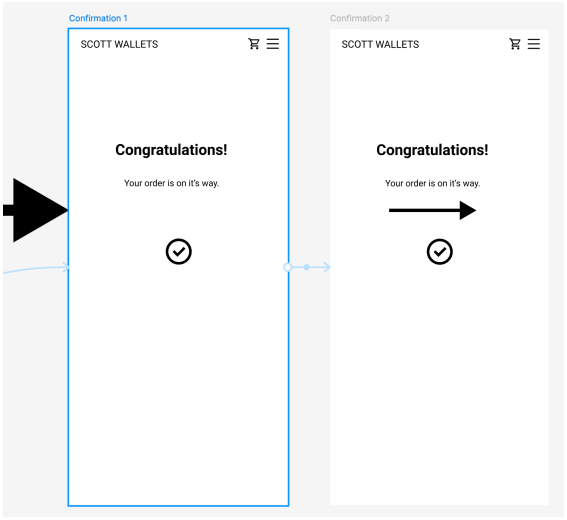

Class project 04 - Testing on your phone

- Using the Prototype features you've learnt, connect the buttons on your wireframe.
- Download Figma Mirror from either the Google Play or App Store.
    - Note: If the app doesn't work, go to this URL on your phone directly: www.figma.com/mirror
- Login with your Figma account.
- Test the design on your phone.
- Make any adjustments to your design to ensure you have clickable buttons and readable fonts.
- Deliverables:
    - Take a photo of your phone showing your wireframe and upload to the Assignments/Projects/Comments section of this website.
    - Note: If it's not possible to photograph your phone, take a screenshot from your phone.

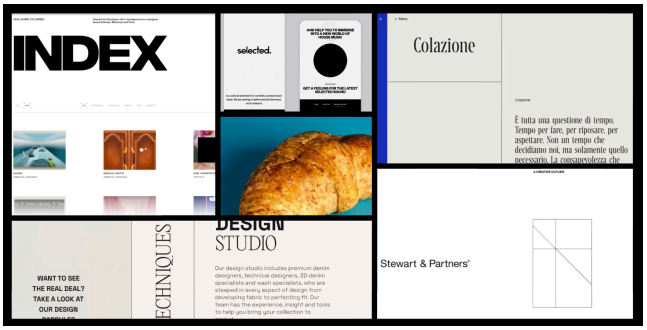

Class project 05 - My first animation

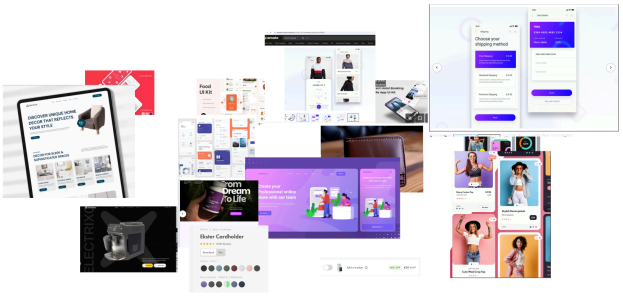

- Create some kind of animation on the confirmation page to indicate a successful purchase.
- If animation is new and tricky for you, just recreate the arrow animation.
- If you're feeling brave, see if you can mix it up a bit.
    - Still something simple.
    - From the top?
    - Arrow? Ball? Square? Tick? Icon?
- Deliverables:
    - Take a screenshot of your multiple Confirmation Pages & upload it to the Class Projects/Assignments section of this website.
        - Note: If you know how to record your screen, please upload a video of your animation or a link to your Vimeo/YouTube video.
        - E.g:

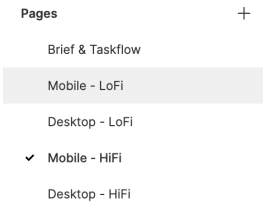

Class Project 06 - Moodboard

- Create a moodboard for your company.
- Move your file back to drafts
- Add it to a page called 'Moodboard'
    - This can be a simple screenshot dump or something a little fancier like the Figma Community example.
- Deliverables:
    - Take a screenshot of your moodboard & upload it to the Class Projects/Assignments section of this website.
    - Example:

- 

- 

Class Project 07 - Colors & Columns

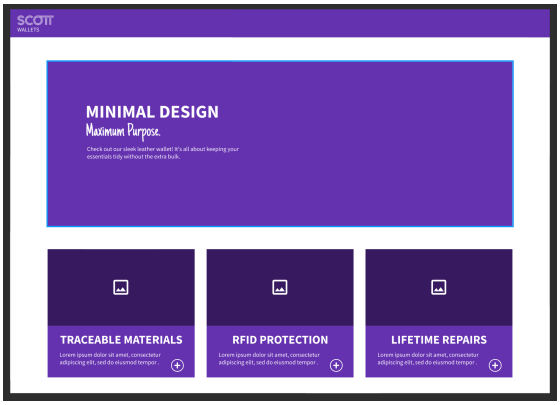

- Boring Columns:
  - Create your Mobile & Desktop Hi Fidelity pages in Figma.
    - 

  - Add the 4 frames from our task flow.
    - Homepage
    - Product Details
    - Check Out
    - Confirmation.
  - Add columns to mobile & desktop.
- Exciting Colors:
  - Choose a draft color palette (primary, secondary, accent & greys).
    - Choose your own colors here. You can pull these from your moodboard or color inspiration websites.
  - Create a grid of colors like the example below.
  - Create Color Styles for each of the color swatches.
- Deliverables:

- Take a screenshot of your colors & style names & upload it to the Projects/Assignments section of this website.
    - Don’t worry about the columns, I’ll trust you’ve got them ;)
    - Example:

Class Project 08 - Text

- *Create your logo.*
    - *This doesn't have to be fancy, unless you want it to be.*
- *Homepage:*
    - *Add your marketing message.*
    - *Add your placeholder body copy or AI generated text.*
- *Create your text styles.*
- *Move your text styles & color palette to a new Style Guide Page*
- *Research and create 3-4 feature UI cards.*
    - *Examples are in the exercise files: UI Card Examples.*
    - *https://mobbin.com is a good place to look.*
- Deliverables:
    - Take a screenshot of your Style Guide page & your home page of your desktop design & upload it to the Projects/Assignments section of this website.
    - 

    - 

    - Share on social media as well:
        - Instagram: @bringyourownlaptop
        - Twitter: @danlovesadobe
        - Facebook group here
        - LinkedIn group here

Class Project 9 - Pen Tool

- Using the Pen Tool & the Pen Tool 01.png file, draw the practice exercises.
- Next, attempt to draw a heart shape.
    - Use your own colors.
    - Experiment with join options e.g. Mitre, Bevel & Round.
    - Experiment with Stroke Settings e.g. Dynamic & Brush
    - This is hard :)
- Deliverables:
    - Take a screenshot of your practice drawings & your heart of your desktop design & upload it to the Projects/Assignments section of this website.
    - 

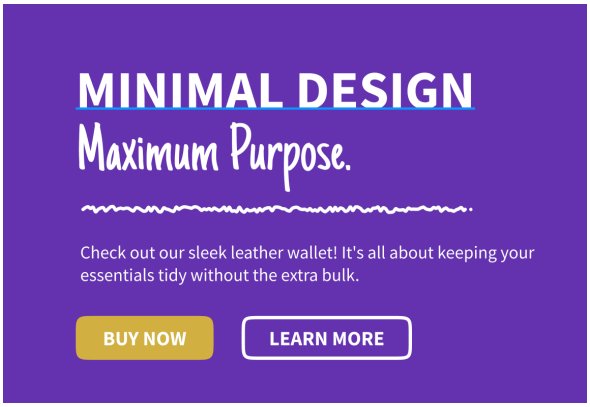

Class Project 10 - Icons

- Make Buttons with Text
    - With or without squircle edges.
- Create 3 icons from the list below.
    - If you're up for the challenge, I'd like you to see if you can create 5 or maybe even all of them!
        - Burger menu icon
        - Account icon
        - Share icon
        - Search icon
        - Home icon
        - Chat icon
        - Edit icon
        - Settings
        - Like icon
        - Map icon
        - Phone icon
        - Shopping cart icon
    - Note:
        - It can be good to start with a 48x48 square to use as a guide.
- Test the size of buttons, text & stroke width on your phone using the Figma app.
- Deliverables:
    - Take a screenshot of the icons you've created.
    - Take a screenshot of your homepage.
    - Upload it to the Projects/Assignments section of this website.
    - Share on social media as well:
        - Instagram: @bringyourownlaptop
        - Twitter: @danlovesadobe
        - Facebook group here
        - LinkedIn group here

Class Project 11 - Images

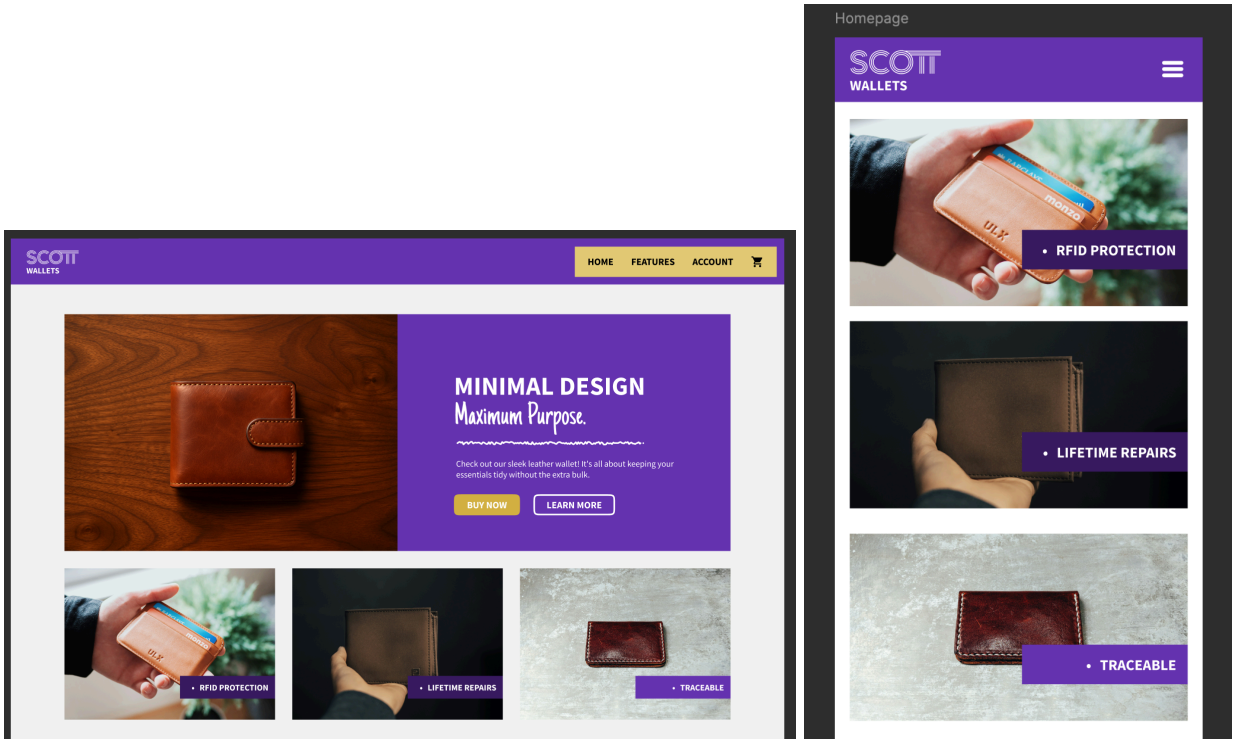

- Add images to your desktop hi-fi design.
- Experiment with using any free image plugin.
- Experiment with the AI tool (If you have access to the paid version of Figma)
- Remember to keep your brief & persona in mind when making image choices.
- Deliverables:
    - Take a screenshot of your design showing where you're up to in the course.
    - Upload it to the Projects/Assignments section of this website.
    - Share on social media as well:
        - Instagram: @bringyourownlaptop
        - Twitter: @danlovesadobe
        - Facebook group here
        - LinkedIn group here

Class Project 12 - Buttons

- Make 3 buttons
    - Expanding Buttons (Hugging)
        - BUY NOW
        - LEARN MORE
    - Fixed Width Button
        - PURCHASE (250x50px)
- Deliverables:
    - Take a screenshot of your buttons, showing where you're up to in the course.
    - Upload it to the Projects/Assignments section of this website.
    - 

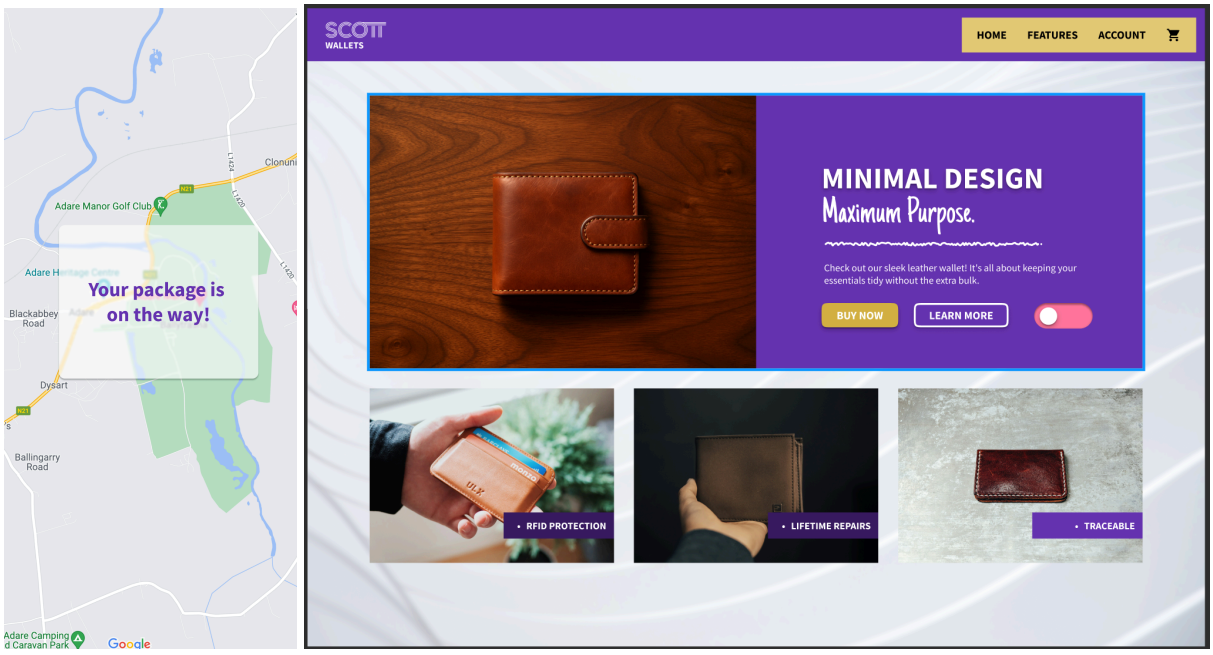

Class Project 13 - Responsive Design

- Desktop Navigation
    - Create a responsive text list Home, Features, Cart, Account.
        - The Cart should be a cart icon.
    - Create a new nav for mobile using the burger menu.
- Feature Cards
    - Create responsive feature cards for your desktop view that adjust to different sizes.
    - Add the cards to your Mobile Hi-Fi page.
    - Your design can be different to mine.
- Deliverables:
    - Take a screenshot of the homepage on Desktop and Mobile.
    - Upload it to the Projects/Assignments section of this website.
    - Share on social media as well:
        - Instagram: @bringyourownlaptop
        - Twitter: @danlovesadobe
        - Facebook group here
        - LinkedIn group here

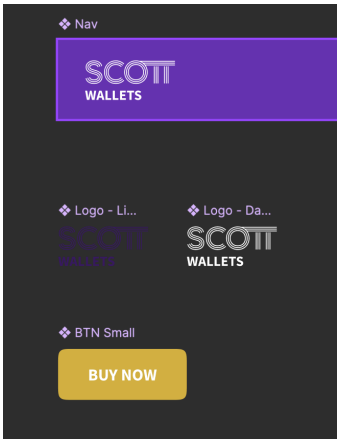

Class Project 14 - Effects

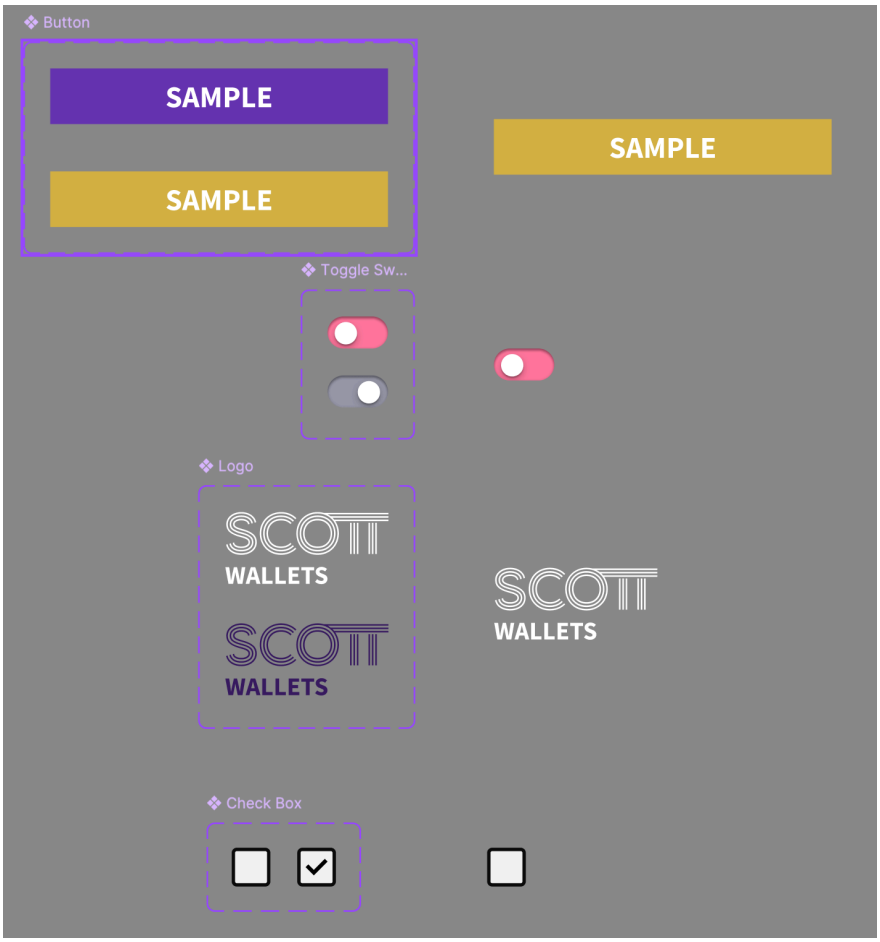

- Go through your design & add at least one of each of the effects.
    - Drop shadow
    - Inner shadow
    - Layer Blur
    - Background Blur
- Deliverables:
    - Take a screenshot showing all the effects.
    - Upload it to the Projects/Assignments section of this website.
    - Share on social media as well:
        - Instagram: @bringyourownlaptop
        - Twitter: @danlovesadobe
        - Facebook group here
        - LinkedIn group here

Class Project 15 - Components

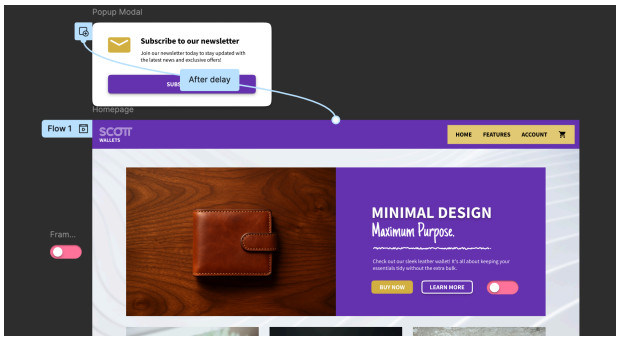

- Create a new page called ‘Components’.
- Create
    - 2 logo components
        - One for dark and one for light interfaces.
    - 1 Button component
    - 1 Nav Component
        - With a nested instance of the logo.
- Deliverables:
    - Take a screenshot showing the assets folder & the 4 components.
    - Upload it to the Projects/Assignments section of this website.
    - Example:
        - 

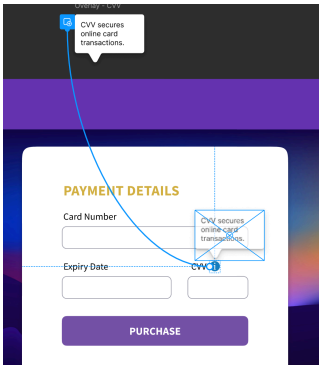

Class Project 16 - Variants

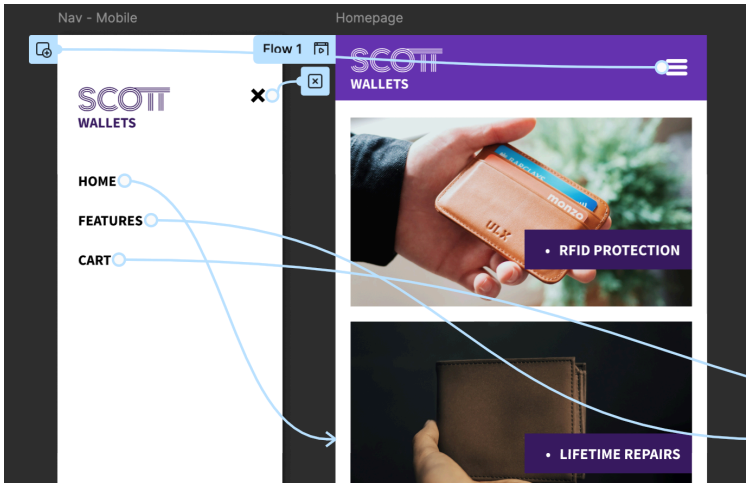

- Create 4 Variants:
    - Button - Primary & Secondary Colors
    - Toggle Switch - On & Off
    - Logo - Light & Dark
    - Check Box - On and Off
- Deliverables:
    - Take a screenshot showing the 4 component sets.
    - Upload it to the Projects/Assignments section of this website.
    - Example:
        - 

Class Project 17 - Prototyping

- Create these three prototypes for your project:
    - Popup Modal
        - E.g.
            - Email signup
            - Add to Cart Confirmation
            - Coupon Code Input
            - Payment Failed
            - Cookie Acceptance
    - Tooltip for CVV.
    - Mobile navigation slider.
- Deliverables:
    - Take screenshots of each element so we can see the prototype lines.
    - Upload it to the Projects/Assignments section of this website.
    - Share on social media as well:
        - Instagram: @bringyourownlaptop
        - Twitter: @danlovesadobe
        - Facebook group here
        - LinkedIn group here
- Example:

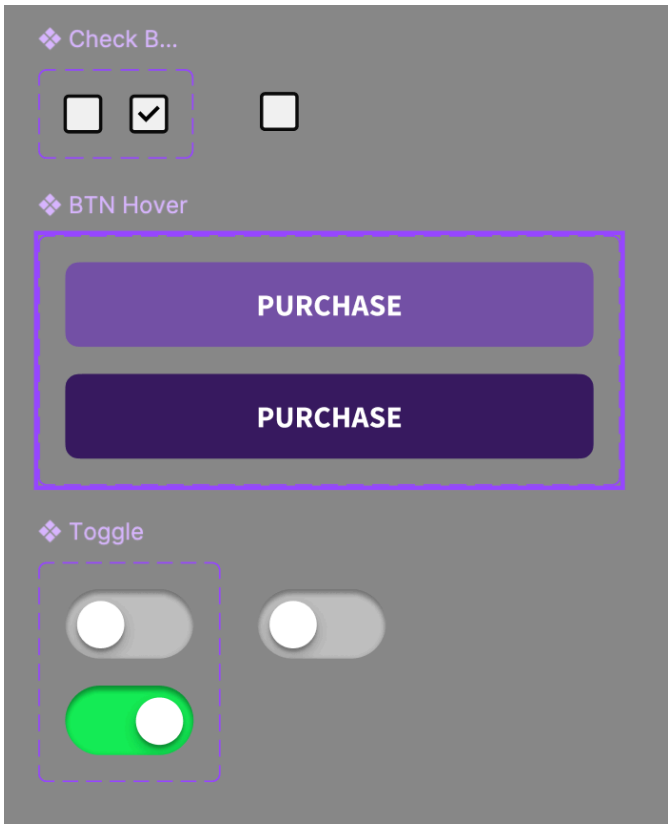

Class Project 18 - Micro interaction

- Create 3 micro interactions.
    - Check Mark (Email Newsletter Permission)
    - Hover Button
    - Toggle Switch
    - *Note: Make sure the component sets are on your component page.*
- Deliverables:
    - Take a screenshot of your component set.
    - Upload it to the Projects/Assignments section of this website.
        - Note: If you know how to record your screen, please upload a video of your animation or a link to your Vimeo/YouTube video.
    - Share on social media as well:
        - Instagram: @bringyourownlaptop
        - Twitter: @danlovesadobe
        - Facebook group here
        - LinkedIn group here

Class Project 19 - Finish your design

- Finish your desktop hi-fi flow.
    - 4 pages.
- Fill out the interface with any missing information or pages.
- Make sure you use:
    - Type & Color Styles
    - Masking
    - Effect
    - Placeholder Text or AI copy.
- Deliverables:
    - Take a screenshot of your desktop frames.
    - Upload it to the Projects/Assignments section of this website.
    - Share on social media as well:
        - Instagram: @bringyourownlaptop
        - Twitter: @danlovesadobe
        - Facebook group here
        - LinkedIn group here
- Optional
    - For bonus karma points, finish your mobile hi-fi layout as well.
